AtlanticDerm CONFERENCE

2018 PLANNING COMMITTEE

DEAR COLLEAGUES AND FRIENDS:

The New England Dermatological Society (NEDS) is excited to be hosting the 95th Atlantic Dermatological Conference (ADC 2018)!

It is with great pleasure that we invite you to attend ADC 2018, to be held May 11 – 13, 2018 at the Rhode Island Convention Center (RICC) in Providence, RI.

The planning committee has tailored this meeting for you with a dermatological professional who wants to continue learning.

We look forward to three days of interactive educational and scientific sessions, product theaters, networking with colleagues and the ADC Exhibit Hall. In the Exhibit Hall, a wide variety of companies will be represented to discuss new and emerging dermatological products, technologies and services.

The Live Patient Viewing Session, the hallmark of ADC, will be Saturday, May 12, 2018. This will be held in the morning at Warren Alpert Medical School of Brown University, followed by an expert panel discussion reviewing each of the cases back at the RICC.

Plan to join us for a truly unique reception on Saturday evening at the Rhode Island School of Design (RISD) Museum of Art. Enjoy cocktails and New England cuisine while experiencing exclusive access to the famous RISD Museum of Art, which has a vast collection of objects for your viewing pleasure.

If you have any questions regarding the meeting, please feel free to contact ADC at (317) 205-9480 or via email at info@atlanticdermconference.org. You may also visit www.AtlanticDermConference.org.

We look forward to welcoming you in little Rhody on May 11 – 13, 2018!

Sincerely,

LIVE PATIENT VIEWING

Saturday, May 12, 2018 ▶ 8:00 am – 11:00 am

WARREN ALPERT MEDICAL SCHOOL OF BROWN UNIVERSITY
222 Richmond Street, Providence, RI 02903

ADC's Live Patient Viewing session and discussion is always a conference highlight. During this session, patients with exceptional diagnostic or therapeutic challenges are seen and examined by conference attendees. Cases presented also feature rare skin disorders, cutaneous manifestations of systemic disease and novel treatments.

The afternoon patient viewing discussion will include a review and analysis of the morning cases moderated by a panel of expert dermatologists and dermatopathologists.

This year we will be featuring interactive sessions to promote audience engagement. This conversation among conference attendees will be facilitated through "Poll Everywhere" where attendees can text in their responses or use a provided web link.

After the completion of this session, attendees will gain new insight into diagnosis, treatment, and evaluation of challenging dermatology patients.

CME

12.25 AMA PRA Category 1 Credits™

This activity has been planned and implemented in accordance with the essential areas and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of National Association for Continuing Education and the New England Dermatological Society. The National Association for Continuing Education is accredited by the ACCME to provide continuing medical education for physicians.

The National Association for Continuing Education designates this live activity for a maximum of 12.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

DISCLOSURE POLICY

It is the policy of the National Association for Continuing Education to ensure fair balance, independence, objectivity and scientific rigor in all activities. All faculty participating in CME activities sponsored by the National Association for Continuing Education are required to present evidence-based data, identify and reference off-label product use and disclose all relevant financial relationships with those supporting the activity or others whose products or services are discussed. Faculty disclosure will be provided in the activity materials.

COMMERCIAL SUPPORT

If commercial support is received for this CME activity, participants will be notified in onsite materials.

STATEMENT OF NEED

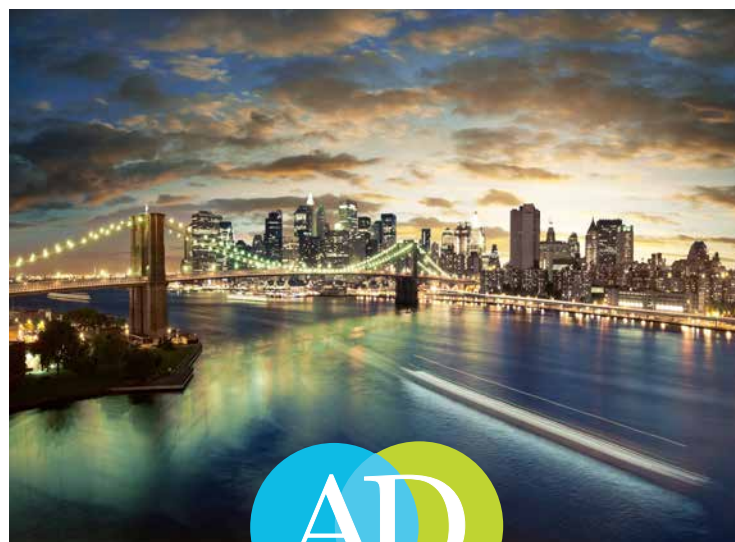

Significant advances have occurred in the diagnosis and treatment of dermatological conditions. Practitioners in the field need educational opportunities to gain knowledge of recent findings and newly accepted standards related to diagnostic techniques and treatment options. By providing up to date information on the latest advances in diagnostics, therapies, and pathogenesis by those who specialize in the field, our goal is to facilitate best practices and improve current provider practices.

TARGET AUDIENCE

This CME activity is designed for Dermatologists, NPs, PAs, Medical Students, Residents/Fellows and other specialists from the Mid-Atlantic region of the United States and Canada.

LEARNING OBJECTIVES

At the conclusion of this CME activity, learners should be able to discuss clinical presentation and pathophysiology of dermatologic conditions; discuss the diagnosis and treatment of the conditions covered; and discuss general clinical advances in the field of dermatology and issues specific to practitioners in the field.
