Dear Colleagues, and Friends:

WELCOME TO THE BIG APPLE!

The Dermatologic Society of Greater New York welcomes you to the 96th Atlantic Dermatological Conference (ADC 2019) in New York, NY.

In keeping with tradition, the Committee has organized a case-based conference with three days of interactive educational and scientific sessions, product theaters, exhibits and e-posters.

Networking opportunities are available during the Welcome Reception to be held in the Exhibit Hall. We encourage you to take the opportunity to visit each exhibitor over the next couple of days, as their support is valuable to this meeting, our practices, and our profession. Visit the ADC Exhibit Hall to discover new and emerging dermatological products, technologies and services.

The hallmark of ADC, our Live Patient Viewing Session, will be held on Saturday, May 4 on the 24th floor of the Grand Hyatt New York (8:00 am – 11:00 am). This will be followed by our Keynote Luncheon speaker, Hall of Famer and MLB's Chief Baseball Officer, Joe Torre, and an afternoon of case discussions led by an expert panel of moderators.

We hope you are planning to join us for a truly unique reception on Saturday evening at the Intrepid Sea, Air and Space Museum. ADC has arranged exclusive access to the famous air craft carrier museum, which displays original artifacts and aircrafts, historic video footage and offers the option to explore interactive exhibits.

We look forward to your participation during ADC 2019 and thank you for your continued support! If you have any thoughts or questions throughout the weekend, please feel free to email, tweet, and visit the ADC Staff at the registration desk.

Sincerely,

Monica Schadlow, MD

CONFERENCE EVALUATIONS

1 OVERALL CONFERENCE EVALUATION FORM

An evaluation link will be sent to all attendees after the conference. Please share your feedback on your overall conference experience in this survey and be entered in a drawing to win a $200 prize.

2 CME EVALUATION FORM

All attendees will receive an email after the meeting with a link to an online evaluation. The evaluation must be completed within 2 weeks of the conference. NACE will send all participants an email no later than May 31, 2019 with instructions for claiming CME credit and printing your CME certificate.

SCHEDULE+ & FACULTY

The 2019 Atlantic Dermatological Conference brings together the world's foremost experts to provide dermatologists with the most up-to-date guidelines, techniques, and clinical advances for diagnosing and treating skin disorders. Scientific sessions on a variety of topics will be on Friday and Sunday with the highly anticipated Live Patient Viewing on Saturday.

STATEMENT OF NEED

Significant advances have occurred in the diagnosis and treatment of dermatological conditions. Practitioners in the field need educational opportunities to gain knowledge of recent findings and newly accepted standards related to diagnostic techniques and treatment options. By providing up to date information on the latest advances in diagnostics, therapies, and pathogenesis by those who specialize in the field, our goal is to facilitate best practices and improve current provider practices.

LEARNING OBJECTIVES

At the conclusion of this CME activity, learners should be able to discuss clinical presentation and pathophysiology of dermatologic conditions; discuss the diagnosis and treatment of the conditions covered; and discuss general clinical advances in the field of dermatology and issues specific to practitioners in the field.
