Dear Colleagues and Friends:

The Washington DC Dermatological Society welcomes you to the 97th Atlantic Dermatological Virtual Conference (ADC 2020).

Due to the COVID-19 pandemic, ADC has decided to host its first virtual meeting. This conference will give attendees the opportunity to view and discuss live patients and view a variety of lectures live or on-demand. During this unprecedented time, this conference will allow for virtual interaction with our colleagues and much needed continuing CME hours.

Starting June 11, there will be 20 scientific sessions offered on-demand through the meeting platform. These recordings will be available to view anytime until December 31, 2020. Our speakers will also be present for a live panel question and answer sessions to discuss any questions that you may have regarding their presentations. Please refer to the meeting schedule for further information.

Our scientific session "Hot Topics" will be a live session on June 25, followed by a Live Panel discussion. We are excited to offer this portion to you as an added chance to learn, discuss, and network with colleagues.

The Live Patient Viewing Session, will also have a virtual competent. All registered attendees will have access to the Live Patient View Casebook, that will include over 50 cases with interesting diagnostic and/or therapeutic challenges, use of novel treatments, rare skin disorders, and cutaneous manifestations of systemic disease. During our 2-Part Live Patient Viewing Discussion we will highlight the top 30 cases, and our expert panel will discuss questions submitted by attendees.

Finally, without our exhibitor and sponsor support, this virtual conference would not be possible. Please be sure to visit ADC's Virtual Exhibit Hall, where a wide variety of companies will show off their dermatological products, technologies and services. Our sponsors will also host Virtual Product Theater presentations, where companies are showcasing the latest advances in dermatology.

Thank you for your patience and understanding as we transformed this conference to a virtual event. We look forward to your participation and thank you for your continued support! If you have any thoughts or questions, please feel free to email the ADC staff: info@atlanticdermconference.org.

Sincerely,

A. Yasmine Kirkorian, MD, FAAD

CALL FOR ABSTRACTS OPENS
SEPTEMBER 8, 2020

REGISTRATION OPENS
NOVEMBER 1, 2020

WASHINGTON,DC

SCHEDULE[+] & FACULTY

The 2020 Atlantic Dermatological Conference brings together the world's foremost experts to provide dermatologists with the most up-to-date guidelines, techniques, and clinical advances for diagnosing and treating skin disorders. Due to the circumstances surrounding the coronavirus pandemic, the 2020 program will include both on-demand sessions and live virtual sessions featuring patient cases and panel discussions on June 25, 2020.

STATEMENT OF NEED

Significant advances have occurred in the diagnosis and treatment of dermatological conditions. Practitioners in the field need educational opportunities to gain knowledge of recent findings and newly accepted standards related to diagnostic techniques and treatment options. By providing up to date information on the latest advances in diagnostics, therapies, and pathogenesis by those who specialize in the field, our goal is to facilitate best practices and improve current provider practices.

LEARNING OBJECTIVES

At the conclusion of this CME activity, learners should be able to discuss clinical presentation and pathophysiology of dermatologic conditions; discuss the diagnosis and treatment of the conditions covered; and discuss general clinical advances in the field of dermatology and issues specific to practitioners in the field.

LIVE PATIENT VIEWING

JUNE 25, 2020 | 2:45 PM – 5:30 PM

ADC's live patient viewing session and discussion is always a conference highlight. ADC has transformed this portion of the conference to a virtual option where attendees will virtually view patient cases with exceptional diagnostic or therapeutic challenges. Cases presented also feature rare skin disorders, cutaneous manifestations of systemic disease, and novel treatments.

The live patient viewing discussion will include a review and analysis of the 32 selected cases moderated by a panel of expert dermatologists and dermatopathologists.

After the completion of this session, attendees will gain new insight into diagnosis, treatment, and evaluation of challenging dermatology patients.

AMERICAN WITH DISABILITIES

Any activity registrant who feels s/he may need accommodations based on the impact of a disability should contact the Washington DC Dermatological Society to discuss your specific needs.

DISCLOSURE POLICY

In accordance with the Accreditation Council for Continuing Medical Education (ACCME) Standards for Commercial Support, educational programs sponsored by the National Association for Continuing Education (NACE) must demonstrate balance, independence, objectivity, and scientific rigor. All faculty, authors, editors, staff and planning committee members participating in a NACE-sponsored activity are required to disclose any relevant financial interest or other relationship with the manufacturer(s) of any commercial product(s) and/or provider(s) of commercial services that are discussed in an educational activity. All faculty, reviewer and planner conflicts of interest have been resolved through peer review of the content and/or agreement to NACE conflict of interest resolution policies.

The ACCME defines a commercial interest as an entity producing, marketing, re-selling, or distributing health care goods or services consumed by or used on patients. The ACCME does not consider providing clinical service directly to patients to be commercial interests - unless the provider of the clinical service is owned, or controlled by, an ACCME-defined commercial interest.
