## Reflections on Clearance Examination of Switching Data with SKYRIZI for Adults with Moderate to Severe Plaque Psoriasis

*This is an independent non-accredited Product Theatre sponsored by AbbVie*

Examination of Switching Data with SKYRIZI for Adults with Moderate to Severe Plaque Psoriasis.

### Learning objectives

- Understand the treatment goals of patients with moderate to severe plaque psoriasis
- Review the results from the UltIMMa-1, -2, LIMMitless, and IMMvent trials
- Explore subanalyses of treatment responses after switching to SKYRIZI® from HUMIRA® (adalimumab) or Stelara® (ustekinumab)

### Speaker

#### **Dr. Jerry Bagel, MD**

Dr. Bagel is a nationally recognized expert in the treatment of psoriasis and is regularly invited to speak across the country and internationally about this medical condition and its treatment. Dr. Bagel has been named a Top Doctor in the Castle Connolly Medical Top Doctors of the New York Metro Area every year from 2001-2015. He was named a 2005 New Jersey Top Doctor by New Jersey Life; a Best Doctor in New Jersey by New Jersey Monthly in 2001 and 2003; and received a Patients' Choice award in 2008 as well as in Inside Jersey in 2013 and 2015. He is a four term member of the medical advisory board of the National Psoriasis Foundation. Dr. Bagel is an Editor of Practical Dermatology and the Assistant Editor of Psoriasis Forum. He has published extensively on the topic of psoriasis in such journals as The Journal of the American Academy of Dermatology and The Journal of Drugs & Dermatology. Dr. Bagel loves spending his free time at the beach, watching the Mets and enjoying great cuisine!

10:15 – 11:15am EDT
